

**EIR**

**EIR**

and

**Instructions for printing and legally displaying your placard:**

- 1) Print the placard**
- 2) Cut to 5.5 by 7 inches**
- 3) Attach to the inside of the rear windshield, on the lower passenger side with EIR facing outward. We recommend using double sided mounting tape for best adhesion.**

## ***Now Is The Time To Have Our Voices Heard***

We must continue to voice our concern regarding Crystal Geyser's plans to manufacture plastic water bottles and conduct a tea brewing/juice bottling operation while pumping unregulated amounts of water out of the ground at their plant just outside the Mt. Shasta City limits with no environmental impact review (EIR)

County and City officials claim no EIR is needed. Yet there are major inconsistencies between proposed plant operations and what current zoning laws stipulate as appropriate and legal activities for that site.

(For more information, go to: [www.cawater.net](http://www.cawater.net))

The Board of Supervisors and Mt. Shasta City Council members should know how many residents of Siskiyou County want an EIR completed before this project proceeds. Adhere this placard to the inside of the lower corner of the rear window of your vehicle(s) on the passenger side with "EIR" facing outward and get the word out. (This placement complies with CA Vehicle Code)

Please donate to help cover the costs of litigation to obtain a thorough environmental review of this project. You may donate through PayPal at <http://tinyurl.com/mswater>, or mail donations to W.A.T.E.R. at PO Box 873 Mt. Shasta CA 96067.
